"Who killed the tooth fairy?" is just the beginning of a rich and well thought out spin on the far mythology.Recommended if you enjoy murder mystery and noir comics.1 of 1 people found the following review helpful. The plot and characters are very engaging. I thoroughly enjoyed the artwork. I am anxious to see what happens next.

Who killed the Tooth Fairy? Fairies have always existed in secret, living side-by-side with humankind. But, when one of his daughters is murdered, King Oberon tasks his remaining offspring -- a newly-minted NYPD detective (Charli) and a wingless, feral "black sheep" (Lucy) -- with finding her killer by any means necessary.
